

## Doctor of Philosophy Program in Marine and Coastal Resources Management

The course places a strong emphasis on permanent community participation in coastal and coastal resource management. For example, research problems of communities in the coastal area are integrated into the development plan or strategy of Province as a thesis topic for students in the program This course is an interdisciplinary program. (Interdisciplinary) focus on producing graduates with the ability to integrate knowledge. In science, social sciences, economics, to be used to manage the area and develop marine and coastal resources based on the balance of the ecosystem for sustainable development. By focusing mainly on sea and coastal resource management

1. Number of students limited	5	
2. Plan of study	Plan 1.1	
3. Instruction Administration	Monday - Friday	
4. Format of Instruction	Online / onsite	
5. Tuition fee	56,000 Baht/Semester	
6. Course Structure	<b>Course Structure</b>	<b>A Number of Credits</b>
		Plan 1.1
	Credit	_*
	Thesis	48
	<b>Total</b>	48
* Must register for seminars 3 unit type Audit		
7. Qualification of applicants	for students with a Master's Degree	
8. Application documents required by program	None	
9. Contact info	Assoc.Prof.Dr.Siriporn Pradit Tel : +6674282329 E-mail : <a href="mailto:siriporn.pra@psu.ac.th">siriporn.pra@psu.ac.th</a> Phitchayapa Suwanchatree Tel: +6674286803, E-mail : <a href="mailto:sukanya.t@psu.ac.th">sukanya.t@psu.ac.th</a> <a href="https://www.facebook.com/macorin.psu">https://www.facebook.com/macorin.psu</a> <a href="https://www.envi.psu.ac.th/wwwfem/">https://www.envi.psu.ac.th/wwwfem/</a>	

### Test schedule

Subject	Date and Time	Venue
interview	March 2023	Class room 2, Marine and Coastal Resources Institute
	May 2023	
	October 2022
