

## Doctor of Philosophy Program in Pharmaceutical Sciences

This course plays a role in developing human resources to expand Thailand's long-term ability to remain competitive. It is an integral program to produce a Doctor of Philosophy in Pharmaceutical Sciences for employment in private or public sectors involved in the research and development of food, drug, cosmetic, and health products. This program is designed to raise the level of development in Thailand to a society that solves national problems with insight and innovation in health, medicine, food, and agricultural industries.
