

Doctor of Philosophy Program in Biology (International Program) (Full time)

Doctor of Philosophy Program in Biology (International Program) focuses on developing students into PhD graduates in Biology who can generate new biological knowledge to support sustainable development. Graduates will be capable of conducting internationally recognized research that meets the needs of the country, particularly in areas related to the conservation and utilization of biological resources both on land and at sea. They will also be able to communicate knowledge to the public through various media in both Thai and English. Additionally, graduates will be able to track progress in their field of interest and become researchers who demonstrate leadership, integrity, ethics, and academic standards, contributing to the sustainable development of society and the economy.

1. Number of students limited	6	
2. Plan of study	Plan 1.1	
3. Instruction Administration	Monday - Friday	
4. Format of Instruction	Online / Onsite	
5. Tuition fee	56,000 Baht/Semester	
6. Course Structure	Course Structure	Plan of study
		Plan 1.1
	Thesis	48
	Total	48
7. Qualification of applicants	Plan 1.1 - Applicants must hold a Master's degree in biology or a relevant field with GPAs no less than 3.25 and have experiences in research related to biology or have at least 2 years of experience in research related to biology. - Applicants must have at least a publication in TCI or Scopus-indexed journals - Applicants must have passed an English proficiency test accredited by the Graduate School no longer than 2 years before the application. - Each case is subjected to the decision of the curriculum committee.	
8. Application documents required by the program	- A recommendation letter from the potential PhD advisor - A transcript - A brief research proposal - Results of an English proficiency test	
9. Contact info	Asst. Prof. Dr. Kringpaka Wangkulangkul E-mail: kringpaka.w@psu.ac.th Asst. Prof. Dr. Dania Chaeha E-mail: daniala.c@psu.ac.th	

Test schedule

Subject	Date	Venue
Semester 1 9.00-12.00 Writing Exam. Each applicant will be assigned to take a specific exam that is relevant to their areas of interest e. g. ecology, animal physiology, plant taxonomy, etc. 13.00 onward - Online (Zoom) interview (15 min. each)	22 May 2025	Online
Semester 2 9.00-12.00 Writing Exam. Each applicant will be assigned to take a specific exam that is relevant to their areas of interest e. g. ecology, animal physiology, plant taxonomy, etc. 13.00 onward - Online (Zoom) interview (15 min. each)	24 September 2025	Online
