

Master of Science Program in Forensic Science (Full time)

The Master’s of Science in Forensic Science is the only one in Thailand with courses covering all fields of forensic science taught by experts with international publications and PhD in Forensic Science from world’s leading forensic programs. Our program integrates knowledge from different fields of forensic science to produce graduates capable of using effective investigation skills, problem-solving skills, and research skills to solve complex forensic problems. In addition, the program draws on the unique strengths of the full-time and part-time lecturers. We are one of the most diverse in terms of specialties, including highly unique courses such as forensic wildlife, forensic ecology, forensic palynology, and forensic electrochemistry. Our students publish more international research articles and patents compared to other forensic science programs in Thailand, and collaborate with both national and international organizations, such as Office of Police Forensic Science; Central Institute for Forensic Science; Institute of Forensic Medicine; Department of National Parks, Wildlife and Plant Conservation; Flinders University, Australia; University of Vienna, Austria; Lund University, Sweden; and Universiti Sains Malaysia, Malaysia.																											
1. Number of students limited	10																										
2. Plan of study	Plan A1, A2																										
3. Instruction Administration	Monday - Friday																										
4. Format of Instruction	Online / onsite																										
5. Tuition fee	56,000 Baht per semester																										
6. Course Structure	<table><tr><th rowspan="2">Course Structure</th><th colspan="3">Plan of study</th></tr><tr><th>Plan A1</th><th>Plan A2</th><th></th></tr><tr><td>Required subject</td><td>-</td><td>16</td><td></td></tr><tr><td>Elective subject (no more than.....)</td><td>-</td><td>2</td><td></td></tr><tr><td>Thesis</td><td>36</td><td>18</td><td></td></tr><tr><td>Total</td><td>36</td><td>36</td><td></td></tr></table>	Course Structure	Plan of study			Plan A1	Plan A2		Required subject	-	16		Elective subject (no more than.....)	-	2		Thesis	36	18		Total	36	36				
Course Structure	Plan of study																										
	Plan A1	Plan A2																									
Required subject	-	16																									
Elective subject (no more than.....)	-	2																									
Thesis	36	18																									
Total	36	36																									
7. Qualification of applicants	<p>Plan A1</p> <p>- A Bachelor of Science in related fields, such as Chemistry, Biology, and Biotechnology with either (1) at least one year of work experience in forensic science or (2) a cumulative GPA of 3.5 (out of 4.0 system) and above.</p> <p>Plan A2</p> <p>- A Bachelor of Science in related fields, such as Chemistry, Biology, Physics, and Biotechnology</p>																										
8. Application documents required by program	<p>- Certified document of work experience from employer (only for Plan A(1))</p> <p>- Concept or full proposal of interested research topic (not mandatory but will be an advantage)</p>																										
9. Contact info	<p>Assoc. Prof. Dr. Phuvadol Thanakiatkrai, Program Coordinator for Master’s in Forensic Science, Tel: 0816644166, Email: pthanakiatkrai@gmail.com</p> <p>https://www.sci.psu.ac.th/health-and-applied-sciences/</p>
