

Master of Science Program in Oral and Maxillofacial Surgery

The Master of Science Program in Oral and Maxillofacial Surgery aims to provide a comprehensive education that combines both theoretical knowledge and practical training. From foundational preparation to hands-on practice, the program ensures all students gain equal experience before advancing to real patient care. The program covers a wide range of tasks, including soft and hard tissue surgeries, dental laser applications, implant surgery, bone and tissue reconstruction, and managing patients with systemic conditions. Specialized training utilizes models and pig jaws for advanced surgical techniques. Additionally, the program invites expert lecturers to enhance learning and encourages students to present their research and participate in national and international academic conferences.						
1. Number of students limited	6 (For all study plans)					
2. Plan of study	Plan A 1 (By Thesis) Plan A 2 (Thesis + Lecture), Major 1. Implant Surgery Plan B (Minor thesis + Lecture)					
3.Instruction Administration	Monday – Friday					
4. Format of Instruction	Onsite					
5. Tuition fee	Plan A 1 Thai student 37,000.- THB/Semester International student 74,000.- THB/Semester Plan A 2 Major: Implant Surgery Thai student 52,000.- THB/Semester International student 104,000.- THB/Semester Plan B Thai student 37,000.- THB/Semester International student 74,000.- THB/Semester					
6. Course Structure		Course Structure	Plan of Study			
			Plan A 1	Plan A 2	Plan B	
		Compulsory course	-	26	29	
		Elective course (not less than)	-	2	2	
		Thesis	36	12	-	
		Minor thesis	-	-	6	
		Total	36	40	37	
7. Qualification of applicants	7.1 Plan A 1 (By Thesis) • Completed the Bachelor degree in Doctor of Dental Surgery and/or Doctor of Medicine from both national or international higher educational institutions and received the dental licensure from the Dental Council or the Professional Council from the home country					

	• Passed the training program in oral and maxillofacial surgery from the institution certified by the Dental Council • Completed a Graduate Diploma or a Higher Graduate Diploma in Clinical Medical Science in the field of Oral and Maxillofacial Surgery, or an equivalent qualification from an institution recognized by the Prince of Songkla University Council, will be given special consideration. Plan A 2 (Thesis + Lecture) Major: Implant Surgery • Completed the Bachelor degree in Doctor of Dental Surgery from both national or international higher educational institutions and received the dental licensure from the Dental Council or the Professional Council from the home country • Completed the Graduate Diploma or Higher Graduate Diploma program in Clinical Science in Oral and Maxillofacial Surgery or equivalent study program from a higher educational institution recognized by Prince of Songkla University Council, will be given special consideration. 7.3 Plan B (Minor Thesis + Lecture) • Completed the Bachelor degree in Doctor of Dental Surgery from both national or international higher educational institutions and received the dental licensure from the Dental Council or the Professional Council from the home country Remark: If the qualifications are not strictly met, admission is possible upon the approval by the program committee according to the regulations of the university regarding graduate studies.
8. Application documents required by program	1. A letter of recommendation verified by professors from educational institution or dentists in private or public hospitals and those are required to work in dental field in Oral and Maxillofacial Surgery (It's free of format. Handwriting or typing are acceptable. Please refrain from using the form.) 2. A certified letter from employer (For study leave) 3. Statement of Purpose in English (Please attach an applicant's photo. Handwriting is required.)
9. Contact information	9.1 Assoc.Prof.Dr.Nattawut Thuaksuban Program's chairperson Tel. 0-7442-9876, 0-7428-7591 Fax. 0-7442-9876
